

مليون سلامة

DEAR DOCTOR

In [Biomed](#), we believe that business entities working in a society should behave as a good citizen caring about his society and ready to serve it all the time.

In critical times, this responsibility is much more critical and business should save no effort in supporting society as much as possible.

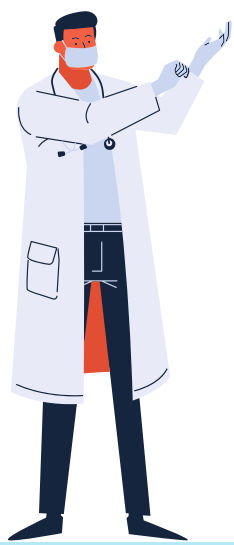

As the current situation leaves almost no sector and no one without negative impact,

we in [Biomed](#) decided to take the initiative to give the support along many dimensions we can serve and be of value.

We did this in 3 ways as following:

HOSPITALS

Supporting many hospitals by providing hand sanitizers, masks and other necessary protection tools we can afford.

DOCTORS

Providing doctors in private clinics with safety bags to help protecting them while doing their job in serving their patients.

CHRONIC PATIENTS

Supporting chronic patients who have been burdened by the current situation by providing chronic medications with

1 million EGP

on monthly basis till the end of this situation.

ACCORDINGLY,
WE ARE SENDING THIS SAFETY BAG FOR YOUR PERSONAL PROTECTION AND THIS SET OF
(9 STRIPS OF ICANDRA PLUS + 3 STRIPS OF STATURIC 80 + 3 HAND SANITIZER BOTTLES)
FOR YOUR PATIENTS WHO NEED SUPPORT DURING THIS PERIOD.

WE KNOW IT MIGHT BE STORMY NOW BUT WE FIRMLY BELIEVE THINGS WILL GO BETTER.

Staysafe

Best wishes from **BIOMED**
